MORE FILMS from Canada's NATIONAL film library

Because the CANADIAN FILM INSTITUTE is the authorized Canadian DISTRIBUTOR for INDIANA UNIVERSITY A-V Center (NET FILM SERVICE).

DYNAMICS OF LEADERSHIP series

5 half-hour films (b/w) for preview, rental, purchase

ANATOMY OF A GROUP - Explores the structure of a group, the characteristic patterns & differences in individual participation and the quality of communications among members.

SIR GEORGE WILLIAMS UNIVERSITY LIBRARY MAR 24 1969 MONTREAL

INDIVIDUAL MOTIVATION & BEHAVIOUR - Discusses reasons why people join groups, why they participate or fail to and why some members try to block or dominate group action.

DIAGNOSING GROUP OPERATION - Points out signs of group conflict, withdrawal, factionalism and group indecision.

SHARING THE LEADERSHIP - Explores three categories of individual action and their relation to group leadership.

ROADBLOCKS TO COMMUNICATION - Distinguishes between genuine disagreements and those due to misunderstanding, the concept of feedback and the use of the watchdog, reaction and audience panels.

THE ELEMENTS series

This series describes the discovery of the missing and transuranium elements. Features Dr. GLENN T. SEABORG (Nobel Prize winner).

MODERN ALCHEMY - Dr. Seaborg and his associates describe the discovery of the four "missing elements"; technetium, astative, francium and promethim. Emphasizes the role of the cyclotron in the creation of synthetic elements.

BEYOND URANIUM - Outlines the discovery of the first six elements beyond uranium and the changes needed in the Periodic Table to accommodate new elements.

MAKING ELEMENTS - A team of scientists re-enact their synthesis, isolation and identification of element 101, mendelevium. Shows and demonstrates methods and special equipment used in handling radioactive materials.

Each film in this series is in 16mm, black and white with a running time of 29 minutes. Rental: $5.00 per showing; purchase: $125.00 U.S. Descriptive brochures available from CFI for both series.
